## **Culture**

The harvest festival

The festival recalls the harvesting and threshing of the grain, reproducing the atmosphere that reigned in those important days within the farming community. For the occasion, at the end of threshing, there is the sharing of the traditional lunch that once was the right refreshment after hours of hard work under the scorching sun. The folk group will brighten the diners with traditional dances in an atmosphere of festive cheer.

Pollino Carnival

The Pollino Carnival is an event of international importance held every year in Castrovillari, which transforms the urban landscape into a real crossroads of ethnicities and civilizations. Thanks to the union with the National Folklore Festival, the Carnival fills the streets of colors and joy through new and fascinating spectacles and fabulous masks..

## **Hiking**
